NILIT® INNERGY Sculpt

SEE AND FEEL THE DIFFERENCE!

NILIT® INNERGY IS THE REVOLUTIONARY YARN THAT DELIVERS EXTRA COSMETIC BENEFITS, FOR A SLIMMER BODY AND SMOOTHER, TIGHTER SKIN.

This innovative nylon 6.6 fiber uses far infrared rays (FIR) to gently warm the deeper layers of the skin - invigorating and trimming the body by reducing imperfections caused by cellulite and fatty tissue (adiposites).¹

NILIT® INNERGY SCULPT APPLICATIONS

NILIT® INNERGY is ideal for use in shapers, hosiery and lingerie. The gentle heat emitted by the fibers helps to sculpt body and reduce the appearance of "orange peel" skin.

Wearing leggings made with NILIT INNERGY has been shown to reduce fat mass, tighten skin, and visibly reduce buttocks and thigh circumference.¹

NILIT® INNERGY can also be used in sportswear, as it invigorates and energizes the athlete during sport activities, and in specialty applications such as medical socks & gloves.

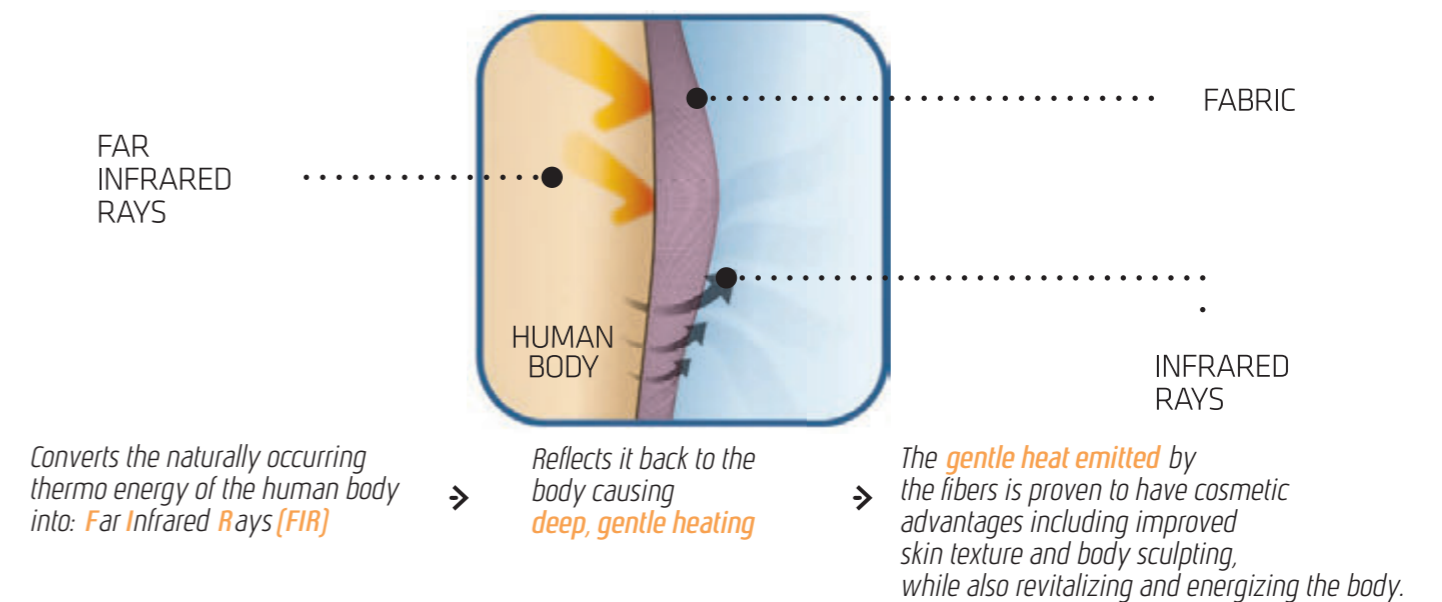

THE INNOVATIVE FIBER

FIR-generating fiber - A nylon 6.6 fiber, with a built-in, naturally occurring mineral additive that creates FIR emissions.

- ✓ Proven efficiency - independent external laboratory testing has confirmed the increased emissivity of the far infrared rays back to the body²
- ✓ Durable and long-lasting - Repeated washing will not decrease the effectiveness of the technology.
- ✓ Proven anti-odor properties³
- ✓ Proven UV protection⁴

RESHAPE YOUR BODY WITH NILIT® INNERGY

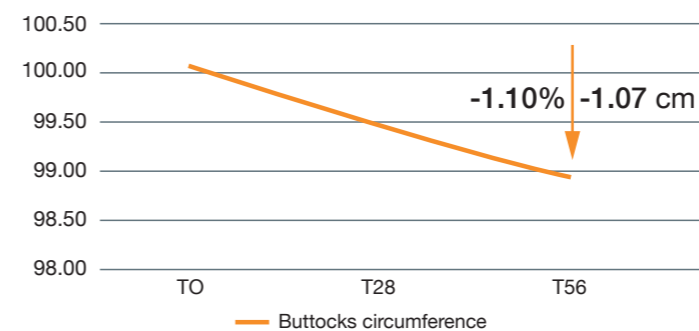

THE PROCESS - ENERGY FROM THE INSIDE OUT

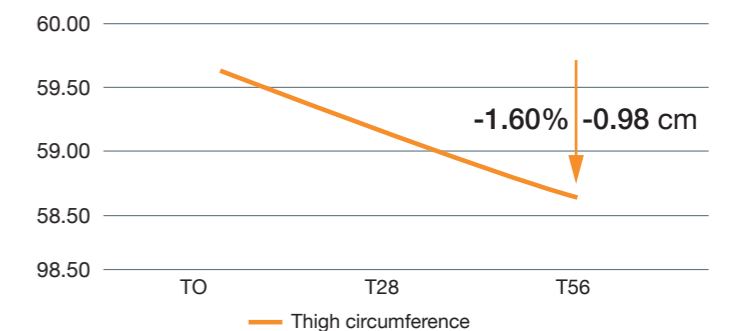

TESTED & PROVEN RESULTS!

The test was conducted on 40 women, aged 18-60, who wore NILIT Innergy leggings for a duration of 8 hours per day over 56 days. ¹

The graphs below clearly show the amazing results from testing the product - a slimmer body with many skin benefits.

Average total reduction of 1.10% (1.07 cm) in buttocks circumference¹

Average total reduction of 1.60% (0.98 cm) in thigh circumference¹

Benefits proven in the study include: ¹

- Enhances skin elasticity
- Reduces fat mass
- Reduces extracellular water
- Improves skin compactness
- Improves skin smoothness
- Reduces the appearance of "orange peel" effect
- Reduces the appearance of nodules
